Art Unit: 1644

DETAILED ACTION

- I. The location of your application in the PTO has changed. To aid in correlating any papers for this application, all further correspondence regarding this application should be directed to Art Unit 1644, Group 1640, Technology Center 1600.
- II. Claims 1-41 are pending.

Election/Restrictions

- III. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 1. Claims 1-41, drawn to an isolated antibody that specifically binds to the AIM-, classified protein of SEQ ID NO: 2, a hydridoma cell line producing said antibody, a composition and kit comprising said antibody, classified in Class 530, 530, subclass 387.1, Class 424, subclass 130.1, Class 435, subclass 810.
 2. Claim 41, drawn to a kit comprising a nucleic acid probe capable of hybridizing to AIM-I RNA, or a pair of nucleic acid primers capable of priming amplification of at least a portion of an AIM-I nucleic acid, classified in Class 435, subclass 810; Class 536, subclass 24.3.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups 1-2 are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the products such as antibody and probe as claimed differs with respect to their structure, physiochemical properties and have different mode of function and effects. Therefore, they are patentably distinct.

- IV. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and/or recognized divergent subject matter. Further, a prior art search also requires a literature search. It is an undue burden for the

Art Unit: 1644

examiner to search more than one invention. Therefore restriction for examination purposes as indicated is proper.

- V. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
- VI. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Huynh "NEON" whose telephone number is (571) 272-0846. The examiner can normally be reached Monday through Friday from 9:00 am to 5:30 p.m. A message may be left on the examiner's voice mail service.
